Nexus Skybox for the Nexus 7, Nexus 5, Nexus 4, Acer Iconia Tab A100. image set a 32-bit color image, and the Windows AI Software Suite Image Suite is a photo editing software which can include many functions. You can add text, background, border, effect to the image like in this case custom color. Below are some other features which are offered by the program. Windows 10 Home has been officially released and one of the main features is the Windows Hello feature. With this feature you can unlock your computer or a lock screen just by using your eyes or fingerprint, thanks to Windows Hello. In this video I show you how to disable it if you don't want to use

---

the feature. Windows Hello works for Windows 10 Home but not Windows 10 Professional or Windows 10 Enterprise. It's a new feature which is cool and innovative, I think it would fit any new Windows computer but if you want to use your own fingerprint or eye as a password then I suggest you go for Windows Hello. I used a fingerprint reader to create this video. To do this first plug in the USB reader to your computer. After that, go to Control Panel, Biometric Settings and click on Set up a new PIN. In this video I show you how to activate Windows 10 Home with a promo key and why this version is better than the Windows 10 Professional or Windows 10 Enterprise. If you are like me and are not sure which version is better, go with the Windows 10 Home and enjoy all the features it offers. Windows 10 Home is a free version. Windows 10 Home will only show you the Start menu of Windows 10, no desktop like the Windows 10 Professional or Windows 10 Enterprise. If you don't want the Windows Hello feature, go with the Windows 10 Home.
